

Rich Pickings

Latimer Road

Take one sweet smelling acacia. Add a resident grape vine, a generous helping of cutting-edge design and lots of period features, and you get this breathtaking family home in SW19. This spacious Victorian property is simply bursting with character and harmoniously combines dramatic design statements from the 1890s with the very latest trends. Sash windows and period fireplaces abound as an enchanting range cooker, reputed to have warmed mince pies in a by-gone era, looks perfectly at home in the fourth bedroom. Downstairs we land firmly back in the 21st Century. The Alno German kitchen sports vast granite worktops with high-tech appliances and hide-away storage which is everything a domestic goddess could wish for. This is a home for entertaining. Having embraced two new born babies, it's a paradise for children and the dramatic dining room has seen its fair share of large celebrations. Currently used as an extravagant office, the loft conversion with en suite shower room is another new addition providing a real retreat away from family life - and a chance to contemplate this gem of a property. Close to South Park Gardens and Wimbledon town centre, its 'happily ever after' all the way home.
